CALLING ALL HUMANITARIANS

This is a participation PUSH call. There are a lot of opportunities.

There is a need in our inner city that requires the best that we as a community have to offer. This is an equal opportunity problem. It does not discriminate on the basis of color, age, gender, or handicap. It is crime. No matter how many times we look for help for this problem it is usually unlimited, and resources limited. Whether we get funded or not will not change the fact that it will still need to be addressed for the sake of our grandchildren.
